

# ANSON COUNTY SCHOOLS

## *SAFETY POLICY*

---

Anson County Schools considers no phase of operation to be of greater importance than employee and student safety. It is the policy of this school system to provide and maintain a safe and healthy working environment. Anson County Schools will establish best practices for safety rules and guidelines to be followed throughout the District.

This policy will be implemented by:

- Developing safety standards for facilities, machinery, equipment, tools and work practices that are based on applicable regulatory standards.
- Providing continuous education regarding general safety policies and procedures.
- Conducting safety inspections to identify and prevent potential hazards.
- Investigating accidents to determine the cause(s) and action(s) required to prevent re-occurrences.
- Providing the necessary personal protective equipment for employees.
- Operating motor vehicles in accordance with safe procedures.
- Identifying potential health hazards and developing necessary protective measures.
- Publicly promoting safety to maintain interest and participation.

It is the responsibility and obligation of all employees to make safety an essential part of their job.
